Details of the Judges Work: <i>(including judging statistics)</i>	Judges performed very high level of knowing rules and judging skills. There were judged 21 FreeStyle jumps And 42 Free Fly jumps
Recommendations for Organisers:	Everything was organized on a high level, the jumps ran smooth, without any breaks and problems. From the judges side nothing to be improved.
Rule Changes Proposals:	The teams have proposed to change FF-5 (Head-up-Head-down carve), to take away requirement for cameraman to be positioned behind one of the competitors, and return back to the old one, where cameraman makes 720 turn opposite direction. And also teams asked to spread the compulsory moves between 2 nd and 5 th jumps, that they consist of equally long and short moves.
Personal remarks:	At this competitions was tested a new scoring system OmniSkore! HD. The system proved itself to work as a robust system, has provided a very good picture on the judging screen, which made judging much easier and pleasant. There were added very useful features for AE event: for compulsory routines there is a possibility to add names of the compulsory moves for each team in the order as they provide judges with. Before watching the video, judges see on the screen compulsory moves order. And the names of the moves are reflected in on the score sheet in order they presented, and teams thus have a possibility to compare the scores for each compulsory move between each other.
