

REPORT ON 2012 F2 CONTROL LINE WORLD CUP

The Control Line World Cup was introduced in 1995 for classes F2A (Speed), F2B (Aerobatics), F2C (Team-Racing), F2D (Combat). Perpetual trophies are awarded for all four classes.

In 2012 there was an increase in the number of competitors who took part in the F2 World Cups. Total numbers increased from 651 to 709 and the number of entries made increased from 1451 to 1532. F2D remained the most popular class with 327 competitors making 756 entries. Junior participation varied from class to class, F2A had 20, F2B 16, F2C 3 complete teams plus 3 part teams and F2D 39.

Of the scheduled competitions, four F2A, three F2B, one F2C and two F2D competitions were either cancelled or not flown due to lack of entries.

I would like to thank the organisers for their diligence in recording the FAI licence numbers. These numbers are so important and enable the results achieved by all competitors, some of whom share a name, to be correctly recorded. Unfortunately due to the ongoing problems with the FAI licence data base, it has not been possible to verify the licence numbers.

All the organisers of the 2012 F2 World Cups were provided with a master Excel results file for all four classes to facilitate the submission of the results and pertinent information. Most of them have used the files while some who should know better have continued to use their own files. Completing the provided files will ensure that all necessary information is recorded. I hope that in 2013 every organiser will use the files provided.

The results and jury report files were uploaded to the F2 World Cup page on the CIAM webpage at intervals throughout the season along with the cumulative results at that time for each class. Previous years full results and jury report are already on the World Cup page of the FAI / CIAM website.

PROTESTS

The Board of Judges nominated by the CIAM Control Line Subcommittee to rule on any protest concerning the World Cup is composed of Bengt-Olof SAMUELSSON (Sweden), Roland SURUGUE (France) and Peter HALMAN (United Kingdom). No protests were referred to the Board during the 2012 World Cup season.

CLASS F2A (Speed)

In Speed (F2A), Sandor KALMAR (Hungary) won with a total speed from his three best competitions of 904.4 km/h, followed by Imre ELEKES (Hungary) with 897.1 km/h and Ferenc SZVACSEK (Hungary) with 896.1 km/h.

17 competitions contributed to the results in Speed. 103 competitors from 23 nations entered and 86 competitors recorded speeds.

The best supported F2A contest in 2012 was the Assen Jordenoff Cup (Bulgaria) which attracted 31 competitors.

The highest placed junior in 2012 is Emil NAGIEV (Russia) who placed 14th overall with a total score of 830.3 kph.

The best speed achieved during the year was by Sandor KALMAR with 302.3 km/h at Bitterfeld (Germany).

F2A

Total number of entries									920	1248	1451	1206	1532	326

The number of competitors has varied slightly over the past 10 years. In 2012 F2A, F2C and F2D recorded the highest ever number of competitors while F2B was only 3 below its peak in 2008. All classes showed a figure above the average.

The unpredictable weather in 2012 may have made flying at some of the competitions very difficult, competitors must be congratulated for continuing to fly.

The trend for running separate World Cup competitions over successive days is increasing; this practice makes economic sense for both the competitors and organisers.

There were three F2 World Cup competitions run outside of Europe, two in Kazakhstan and one in the USA. I hope to see more in years to come.

The running of multiple World Cup competitions for the same classes at different venues on the same date should be avoided wherever possible. It makes no sense to deplete competing numbers in this way. Organisers should respect historical dates, which have been used for many years for some international competitions particularly those which are tied into variable bank holiday dates.

There were no F2 World Cup competitions for non-championship classes in 2012.

Peter Halman
Control Line World Cup coordinator 10th November 2012
